0 of 0 review helpful A Valuable But Fuzzy Edition of Tchaikovsky s Better Piano Concerto By Christopher C Tew

While I am very glad to have this two piano edition of what I consider Tchaikovsky's better piano concerto and appreciate the effort and skill that went into making the second piano part an inclusive playable and musical adaptation of the orchestral parts I cannot agree with other reviewers about the quality of This new edition of Tchaikovsky's Piano Concertos Nos 2 and 3 unites both works for the first time in a single score In addition to a difficult to find version of Tchaikovsky's original Piano Concerto No 2 in G major this edition features Alexander Siloti's suggested revisions Although Siloti had the composer's permission to edit the work he significantly shortened the second movement despite Tchaikovsky's objections and published the concerto with his own revision About the Author
